QA Engineer | Manual & Automation Testing

SUMMARY

QA Engineer with **1.5+ years of experience in Manual and Automation Testing** for web, mobile, and enterprise banking applications. Skilled in F**unctional, Regression, Integration, API, Database, and Cross-Browser Testing**. Hands-on expertise in **Selenium WebDriver (Java), TestNG, Maven, Jenkins, Postman, Playwright, and SQL**. Strong understanding of **SDLC, STLC, Agile/Scrum**, and **defect management using JIRA**.
Experienced in **creating test plans**, writing detailed test cases, executing automation scripts, and collaborating with **cross-functional** teams. Adept at using AI tools (**ChatGPT, Copilot, Gemini**) to optimize documentation, reduce manual effort, and improve productivity.
Experienced in end-to-end testing for **Core Banking (CBS) and network monitoring systems**. Proficient in validating backend data, GL reconciliation, API workflows, and financial transactions. Strong collaboration skills with developers, BAs, and product teams during sprints. Committed to delivering high-quality, reliable, and user-focused software with minimal defects.

WORK EXPERIENCE

Company Name – Penta Software Consultancy Services(I) Pvt Ltd **June 2024 - Present**
1. Project Name - GlobalBank CBS. **Jan 2025- Present**
Role - QA Engineer

Description - Enterprise-grade CBS platform for international and domestic banking operations. QA covered multi-currency CASA accounts, transaction reversals, fund transfers (NEFT/RTGS/SWIFT), and foreign exchange (FX) rate application. Backend testing focused on GL reconciliation, interest application, and compliance reports.

Skill Set/Tools used - Manual Testing, Automation Testing (Selenium Web-Driver, Java, TestNG, Maven, Jenkins, Eclipse IDE), Functional Testing, API Testing(using POSTMAN Tool),Database Testing, Defect Tracking (using Jira), Excel, Figma.

Roles and Responsibilities-

- Prepared Test Plans, Test Scenarios, and Test Cases based on FSD/BRD.
- Performed Functional, Regression, UI, API, Cross-Browser, Mobile (Android & iOS) testing.
- Executed automation scripts using Selenium WebDriver (Java), TestNG, Maven.
- Validated backend operations including GL reconciliation, interest calculations, and reports.
- Performed API Testing using Postman.
- Managed defects using JIRA, tracked and verified fixes.
- Identified test cases for automation and improved execution efficiency.
- Collaborated in Agile ceremonies: sprint planning, daily stand-ups, retrospective.
- Leveraged AI tools to optimize test case writing, documentation, and automation efficiency.
- Hands on experience to use AI Tools like ChatGPT, Copilot, Gemini,GenAI to create testing
- related documents and also reduced manual efforts by using these AI Tools.

2. Project Name - Network Traffic Monitoring System **June 2024 - Jan 2025**
Role - QA Engineer.
Description - The project aimed to build a centralized platform for capturing, analyzing, and visualizing enterprise-wide network traffic. It monitored packets at layer 2–7, identified applications and protocols, detected bandwidth hogging, and triggered alerts for anomalies such as DDoS attacks, port scans, and packet drops. The system integrated with SNMP and syslog, providing real-time dashboards and historical trend analysis for capacity planning.
Skill Set/Tools used - Manual Testing, Automation Testing (Selenium Web-Driver, Java, TestNG, Maven, Jenkins, Eclipse IDE), Functional Testing, API Testing(using POSTMAN Tool),Database Testing, Defect Tracking (using Jira), Excel, Figma.

Roles and Responsibilities :

- Designed and executed manual & automated test cases for core monitoring features.
- Validated packet capture accuracy using Wireshark and tcpdump.
- Performed functional, negative, load, and stress testing for high-traffic scenarios.
- Verified SNMP and syslog integrations and alert triggers.
- Reported issues in JIRA, collaborated with developers during Agile sprints.
- Conducted UI, performance, and backend data validation testing.

SKILLS

- Manual Test Case Preparation
- Automation Testing API Testing
- Database Testing
- Jira
- Selenium
- Cross Browser Testing
- Accessibility Testing
- Pixel Perfect Testing
- Responsive Testing
- Performance Testing
- Agile Methodology
- MobileApp Testing(Android&IOS) POM, BDD, Cucumber
- Oops Concepts
- TestNG
- Maven
- Java
- SQL
- AI Testing
- PlayWright

EDUCATION

- **Bhivarabai Sawant Institute Of Technology And Research Wagholi,Pune**
  B.E[Computer Engineering]
  CGPA:7.21

- **Madhyamik Vidyalay Sanaswadi, Pune, Maharashtra**
  Higher School Education
  Percentage: 77.17%
